

REPAIR, SALES AND ENGINEERING

ABOUT US

FLUID ALLIANCE is widely acknowledged within the industry as one of the Middle East's most experienced and reliable hydraulic repair, mobile hydraulic hose service, sales, and engineering companies, striving to be the first choice for fluid power solutions. We offer a range of services, from design and manufacturing to servicing and complete refurbishment. We also provide customers with an extensive, specialized hydraulic parts service, offering expert advice on equipment and parts sourced from well-known and highly respected manufacturers. Established in 2000, our company has built a solid reputation for quality workmanship and innovative solutions in design and refurbishment across a broad range of industries, including Mining, Drilling, Oil & Gas, Defense, Heavy and Light Manufacturing, Agriculture, Food, Shipping, and Sawmilling.

We understand the cost of downtime to businesses in a very competitive marketplace and make it our priority to address critical breakdowns promptly and efficiently, as well as striving to ensure that every job is delivered on time and within budget. Pickup and delivery of breakdown jobs, along with fast turnaround times, reduce downtime for our customers and minimize disruption to production and work schedules.

The service technician will:

- Promptly assess and remove the failed hose.
- Custom fabricate and install the custom-made hydraulic hose assembly.
- Ensure the equipment is up and running before leaving.

Our emergency hydraulic and industrial hose replacement service is available every day of the year, any time of day or night. Whenever you need a quick on-site hydraulic or industrial hose replacement, give a call to Fluid Alliance.

PRODUCT AND SERVICES

HYDRAULIC AND INDUSTRIAL HOSES ASSEMBLY

Fluid alliance provides the fastest hydraulic and industrial hose maintenance and replacement services through on site mobile services and retail Fluid alliance Service & Supply centers throughout the Saudi Arabia.

MACHINE SHOP & METAL TURNING SERVICES

We specialize in providing CNC turning, CNC milling, CNC machining, Laser cutting, CNC Bending, Die Casting, Industrial Fabrication, Design and reversal engineering, Manual Machining and a variety of mechanical services for small as well as large industries.

Our commitment to innovation, quality and customer service has been a hallmark of Fluid Alliance Hydraulics since the company's inception and remains our focus today."

HYDRAULIC REPAIRS

"Solving problems and developing new systems for efficiency and reliability"

The dedicated and highly skilled team at Fluid Alliance Hydraulics are equipped to tackle any task. From reseals to comprehensive cylinder repairs; barrel honing to complete cylinder manufacture of both large and small cylinders; general repairs of hydraulic pumps, valves and motors tested to certified OEM standards we do it all and more.

Technical support specialisation and capability add value to our services. Through in-house failure analysis and reporting we specialise in identifying intrinsic design flaws in hydraulic equipment and implementing modifications to extend the service life of hydraulic components. we do it all and more.

On-Site Service

Fluid Alliance Hydraulics also provide on-site services. Our hydraulic Service Technicians are on call to troubleshoot critical breakdowns, test pumps, assess repairs for hydraulic equipment, and remove components for further assessment and repair at our fully equipped Workshop, if required. We also offer cost-effective solutions for on-site complete systems audits and filtration.
